LETTER TO SHAREHOLDERS

For the fiscal year ended September 30, 2022, Causeway International Small Cap Fund's (the "Fund" or "Fund's") Institutional Class returned -19.43% and Investor Class returned -19.64%, compared to -28.57% for the MSCI All Country World ex USA Small Cap Index (Gross) ("Index"). Since the Fund's inception on October 20, 2014, its average annual total returns are 3.75% for the Institutional Class and 3.52% for the Investor Class, compared to the Index's average annual total return of 3.68%. At fiscal year-end, the Fund had net assets of \$70.7 million.

Performance Review

Developed equity markets depreciated during the fiscal year. Fourth quarter of 2021 economic data reflected pandemic-related restrictions but largely indicated resilient real gross domestic product growth globally. While 2022 began with a generally favorable backdrop for global economic activity, it was upended in late February by Russia's invasion of Ukraine and subsequent economic shock. Sanctions from the US and European countries on Russia, ongoing supply chain bottlenecks related to the pandemic, and disruptions to energy and commodity markets exacerbated inflationary pressures. In the US, rampant inflation and a tight labor market compelled the Federal Reserve ("Fed") to move more aggressively to raise interest rates. Monetary tightening typically impacts the global economy with a lag; however, signs of economic softening have already emerged. The JP Morgan Global Composite Purchasing Managers' Index ("PMI") survey ended August at 49.3, in contractionary territory for the first time since June 2020 when the Covid pandemic severely hampered economic activity. In Europe, the war in Ukraine and Russia's curtailment of gas supplies continues to weigh on business and consumer sentiment. In September, the Eurozone's consumer confidence indicator fell to an all-time low since the series began. Economic data continued to point to a slowdown, including the Eurozone's composite PMI falling into contraction territory in the latter portion of the period. Despite the growth deceleration, inflationary pressures remain stubbornly high in Europe with both headline and core consumer price inflation increasing. As with the Fed, these developments should increase the pressure on the European Central Bank to accelerate its pace of monetary tightening to fight inflation. In the UK, fiscal policy announcements attracted significant attention at the end of September 2022. A mini-budget, ostensibly to supercharge economic growth, was greeted with derision and only succeeded in undermining the country's fiscal position. Forced to intervene, the Bank of England ("BoE") temporarily reversed course on quantitative tightening. UK consumer confidence dropped to a record low in September and the composite PMI pointed to a meaningful downturn in manufacturing output and stalled service sector growth. With core and headline inflation remaining well-above target levels, we believe the BoE will resume monetary tightening. In contrast to other developed market central banks, the Bank of Japan continues to buy Japanese government bonds, despite the yen depreciating to a 20-year low versus the US dollar. Japan is now one of the only remaining sovereigns with negative-yielding debt, as most European yields are firmly in positive territory. In China, the zero-Covid policy continues to hurt the economy. The World Bank now forecasts that the Chinese economy will grow 2.8% in 2022, down from expectations of 4.3% in June and 5.1% in December 2021. Amid a fragile economy and benign inflation environment, the People's Bank of China lowered policy rates during the period. With two-year yields above 10-year yields, the US yield curve is inverted. This has historically been a negative indicator for emerging markets ("EM") assets as it signals weak global growth prospects. Relatively high yields in the US have also buoyed the US dollar relative to most other currencies. EM currencies have

generally depreciated relative to the US dollar, though EM currencies have fared better than many of their developed market counterparts as most EM central banks have been proactively raising interest rates in anticipation of a Fed rate hiking cycle. The energy, utilities, and financials sectors were the top performers for the trailing twelve-month period. The health care, communication services, and information technology sectors lagged. The top performing markets in the Index were the United Arab Emirates, Turkey, and Qatar. The weakest performing markets were Russia, Hungary, and Sweden.

To evaluate stocks in our investable universe, our multi-factor quantitative model employs bottom-up and top-down factor categories. All of our bottom-up factors delivered positive returns, led by our technical indicators, valuation, and earnings growth. Our competitive strength factor was moderately positive. Our top-down macroeconomic factor also demonstrated predictive power during the fiscal year, while our country factor was modestly negative. From a sector perspective, holdings in the information technology, energy, and industrials sectors contributed most to relative performance versus the Index, while holdings in the materials, utilities, and communication services sectors were the largest relative detractors. The top individual contributors to performance included automotive software company, KPIT Technologies Ltd. (India), coal supplier, PT Indo Tambangraya Megah Tbk (Indonesia), coal miner, New Hope Corp. Ltd. (Australia), consumer electronics manufacturer, Skyworth Group Ltd. (China), and coal miner, PT Bukit Asam Tbk (Indonesia). The top detractors from absolute return were food processor, Marfrig Global Foods SA (Brazil), stainless steel manufacturer, Outokumpu Oyj (Finland), steel & iron distribution company, EVRAZ Plc (United Kingdom), postal services provider, Royal Mail Plc (United Kingdom), and forest products company, Canfor (Canada).

Significant Portfolio Changes

Our bottom-up quantitative security selection model guides the Fund's exposure to industry groups and countries. As of September 30, 2022, the Fund's largest overweight positions (relative to the Index) by sector were the energy, information technology, and utilities sectors, while the Fund's largest underweight positions were real estate, industrials, and health care. From a country perspective, the largest active country overweight positions relative to the Index were South Korea, Brazil, and Japan, while the largest active country underweight positions were the United Kingdom, Switzerland, and France.

Significant purchases in the fiscal year included five new purchases in the Fund: general trading company, Sojitz Corp. (Japan), electric utility, Electric Power Development Co., Ltd. (Japan), crude oil & natural gas extraction company, Whitecap Resources (Canada), energy & urban development company, Sembcorp Industries Ltd. (Singapore), and metals & mining company, National Aluminium Co. Ltd. (India). The largest sales during the period include four full exits from the Fund: marine shipping services provider, SITC International Holdings Co., Ltd. (Hong Kong), online gambling operator, Kindred Group Plc (Sweden), fiber products manufacturer, Hyosung TNC Corp. (South Korea), and semiconductor services provider, ChipMOS Technologies, Inc. (Taiwan), as well as reduced exposure to computer hardware manufacturer, Gigabyte Technology Co., Ltd. (Taiwan).

Investment Outlook

Though we analyze many different stock selection factors in our alpha model, value factors receive the largest weight on average. As of the end of September, the MSCI ACWI ex USA Small Cap Growth Index traded at a 15.2x forward P/E multiple compared to 8.7x for the MSCI ACWI ex USA Small Cap Value Index, a 75% premium.

The market remains focused on the Fed as it raises policy rates and reduces the size of its balance sheet. Recent hawkish statements indicate a clear priority of reducing inflation even if economic growth suffers. Despite falling commodity prices, labor and housing markets have generally remained strong. However, recent indicators suggest this might be changing which would allow the Fed to slow the pace of tightening and perhaps avoid a recession. As long as economic growth remains intact, we believe higher policy rates should generally continue to favor value stocks over longer-duration growth stocks.

The sheer breadth and inefficiency of the International Small Cap (ISC) universe create the opportunity to build a portfolio without the typical tradeoffs in stock characteristics. We believe Causeway's ISC strategy, harnessing multiple sources of alpha, has achieved an attractive combination of portfolio characteristics. We believe valuation matters, even in small capitalization stocks, amidst global economic fears and rising interest rates.

We thank you for your confidence in Causeway International Small Cap Fund.

The above commentary expresses the portfolio managers' views as of the date shown and should not be relied upon by the reader as research or investment advice. These views are subject to change. There is no guarantee that any forecasts made will come to pass.

Holdings are subject to change. Current and future holdings are subject to risk. Securities mentioned do not make up the entire portfolio and, in the aggregate, may represent a small percentage of the portfolio.

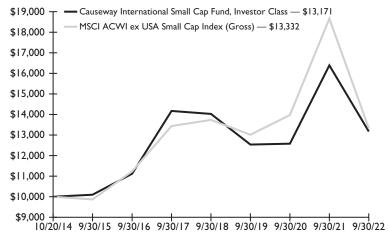

Investing involves risk including loss of principal. In addition to the normal risks associated with investing, international investments may involve risk of capital loss from unfavorable fluctuation in currency values, from differences in generally accepted accounting principles or from economic or political instability in other nations. Emerging markets involve heightened risks related to the same factors as well as increased volatility and lower trading volume. Investments in smaller companies involve additional risks and typically exhibit higher volatility. Diversification does not prevent all investment losses. Forward earnings yield is the next-twelve-months projected earnings yield (earnings-per-share/price) projected by industry analysts.

(1) Alpha – Excess returns relative to the Fund's benchmark.

The Causeway International Small Cap strategy uses quantitative factors that can be grouped into six categories. The relative return attributed to a factor is the difference between the equally-weighted average return of the highest ranked quintile of companies in the strategy's universe and that of the lowest ranked quintile of companies based on that factor.

Comparison of Change in the Value of a \$10,000 Investment in Causeway International Small Cap Fund, Investor Class shares versus the MSCI ACWI ex USA Small Cap Index (Gross) as of September 30, 2022

	One Year Return	Annualized 3 Year Return		Annualized Inception to Date*
Institutional Class	-19.43%	1.90%	-1.24%	3.75%
Investor Class	-19.64%	1.65%	-1.45%	3.52%
MSCI ACWI ex USA				
Small Cap Index				
(Gross)	-28.57%	0.80%	-0.16%	3.68%

The performance in the above graph does not reflect the deduction of taxes the shareholder will pay on Fund distributions or the redemption of Fund shares. * Inception is October 20, 2014.

The performance data represents past performance and is not an indication of future results. Investment return and the principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth less than their original cost and current performance may be higher or lower than the performance quoted. For performance data current to the most recent month end, please call I-866-947-7000 or visit www.causewayfunds.com. Investment performance reflects contractual fee waivers in effect during certain periods. In the absence of such fee waivers, total return would be reduced. The contractual expense limits are in effect until January 31, 2024. Total returns assume reinvestment of dividends and capital gains distributions at net asset value when paid. Investor Class shares pay a shareholder service fee of up to 0.25% per annum of average daily net assets. Institutional Class shares pay no shareholder service fee. Pursuant to the current January 27, 2022 prospectus, as supplemented most recently June 30, 2022, the Fund's annualized gross ratios of expenses in relation to average net assets were 1.51% and 1.72% for the Institutional Class and Investor Class, respectively, and the Fund's annualized ratios of expenses in relation to net assets after fee waivers and reimbursements were 1.13% and 1.38% for the Institutional Class and Investor Class, respectively. For more information, please see the prospectus.

The MSCI ACWI ex USA Small Cap Index (Gross) (the "Index") is a free float-adjusted market capitalization weighted index, designed to measure the equity market performance of smaller capital stocks in developed and emerging markets, excluding the US market, consisting of 46 country indices. The Index covers approximately 14% of the free float adjusted market capitalization in each country. The Index is gross of withholding taxes, assumes reinvestment of dividends and capital gains, and does not reflect the payment of transaction costs, fees and expenses associated with an investment in the Fund. It is not possible to invest directly in an index. There are special risks in foreign investing (please see Note 5 in the Notes to Financial Statements).

MSCI has not approved, reviewed or produced this report, makes no express or implied warranties or representations, and is not liable whatsoever for any data in this report. You may not redistribute the MSCI data or use it as a basis for other indices or investment products.

I. Organization

Causeway International Small Cap Fund (the "Fund") is a series of Causeway Capital Management Trust (the "Trust"). The Trust is an open-end management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act") and is a Delaware statutory trust that was established on August 10, 2001. The Fund began operations on October 20, 2014. The Fund is authorized to offer two classes of shares, the Institutional Class and the Investor Class. The Declaration of Trust authorizes the issuance of an unlimited number of shares of beneficial interest. of the Fund. The Fund is diversified. The Fund's prospectus provides a description of the Fund's investment objectives, policies and strategies. As of September 30, 2022, the Trust has five additional series, the financial statements of which are presented separately.

2. Significant Accounting Policies

The following is a summary of the significant accounting policies consistently followed by the Fund.

Use of Estimates in the Preparation of Financial Statements — The Fund is an investment company that applies the accounting and reporting guidance issued in Topic 946 by the U.S. Financial Accounting Standards Board. The Fund's financial statements have been prepared to comply with U.S. generally accepted accounting principles ("U.S. GAAP"). The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amount of net assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

Security Valuation - Except as described below, securities listed on a securities exchange (except the NASDAQ Stock Market ("NASDAQ")) or Over-the-Counter ("OTC") for which market quotations are available are valued at the last reported sale price as of the close of trading on each business day, or, if there is no such reported sale, at the last reported bid price for long positions. For securities traded on NASDAQ, the NAS-DAQ Official Closing Price is used. Securities listed on multiple exchanges or OTC markets are valued on the exchange or OTC market considered by the Fund to be the primary market. The prices for foreign securities are reported in local currency and converted to U.S. dollars using currency exchange rates. Prices for most securities held in the Fund are provided daily by recognized independent pricing agents. If a security price cannot be obtained from an independent pricing agent, the Fund seeks to obtain a bid price from at least one independent broker. Investments in money market funds are valued daily at the net asset value per share.

Securities for which market prices are not "readily available" are valued in accordance with fair value pricing procedures approved by the Fund's Board of Trustees (the "Board"). The Fund's fair value pricing procedures are overseen by the Fund's valuation designee, Causeway Capital Management LLC ("Adviser"), and implemented through a Fair Value Committee (the "Committee"). Some of the more common reasons that may necessitate that a security be valued using fair value pricing procedures include: the security's trading has been halted or suspended; the security has been delisted from a national exchange; the security's primary trading market is temporarily closed at a time when under normal conditions it would be open; or the security's primary pricing source is not able or willing to provide a price. When the Committee values a security in accordance with the fair value pricing procedures, the

(continued)

Committee will determine the value after taking into consideration relevant information reasonably available to the Committee.

The Fund uses a third party vendor to fair value certain non-U.S. securities if there is a movement in the U.S. market that exceeds thresholds established by the Committee. The vendor provides fair values for foreign securities based on factors and methodologies involving, generally, tracking valuation correlations between the U.S. market and each non-U.S. security and such fair values are applied by the administrator if a predetermined confidence level is reached for the security.

In accordance with the authoritative guidance on fair value measurements and disclosure under U.S. GAAP, the Fund discloses fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The objective of a fair value measurement is to determine the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Accordingly, the fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The guidance establishes three levels of fair value hierarchy as follows:

- Level 1 Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that the Fund has the ability to access at the measurement date;
- Level 2 Quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets which are not active, or prices based on inputs that are observable (either directly or indirectly); and

Level 3 — Prices, inputs or exotic modeling techniques which are both significant to the fair value measurement and unobservable (supported by little or no market activity).

Investments are classified within the level of the lowest significant input considered in determining fair value. Investments classified within Level 3 which fair value measurement considers several inputs may include Level 1 or Level 2 inputs as components of the overall fair value measurement.

Changes in valuation techniques may result in transfers in or out of an investment's assigned level within the hierarchy during the reporting period. Changes in the classification between Levels 1 and 2 occur primarily when foreign equity securities are fair valued by the Fund's third party vendor using other observable market-based inputs in place of closing exchange prices due to events occurring after foreign market closures or when foreign markets are closed and/or when adjustments are made to security values for "foreign line" securities using "local line" prices. Due to currency and ownership restrictions on foreign persons in certain countries, including without limitation Russia and Thailand, securities sometimes trade via a "foreign line" (designated for foreign ownership) and via a "local line" (shares traded locally and held by residents). Liquidity of shares held in the foreign line is often more limited than the local line. As the last traded price of a foreign line may not represent fair value, if the securities can readily be traded through a broker to access the local line, the securities may be priced using the last traded local line price.

As of and during fiscal year ended September 30, 2022, there were no changes to the Fund's fair value methodologies other than related to compliance with Rule 2a-5 under the 1940 Act.

(continued)

Federal Income Taxes — The Fund intends to continue to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code and to distribute all of its taxable income. Accordingly, no provision for Federal income taxes has been made in the financial statements.

The Fund evaluates tax positions taken or expected to be taken in the course of preparing the Fund's tax returns to determine whether it is "more-likely-than- not" (i.e., greater than 50-percent) that each tax position will be sustained upon examination by a taxing authority based on the technical merits of the position. Tax positions not deemed to meet the "more-likely-than-not" threshold are recorded as a tax benefit or expense in the current year. The Fund did not record any tax provision in the current period. However, management's conclusions regarding tax positions taken may be subject to review and adjustment at a later date based on factors including, but not limited to, examination by tax authorities (i.e., the last 3 tax years, as applicable), and on-going analysis of and changes to tax laws, regulations and interpretations thereof.

As of and during the fiscal year ended September 30, 2022, the Fund did not have a liability for any unrecognized tax benefits. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations. During the fiscal year, the Fund did not incur any significant interest or penalties.

The Fund files withholding tax reclaims in certain jurisdictions to recover a portion of amounts previously withheld. The Fund may record a reclaim receivable based on collectability, which includes factors such as the jurisdiction's applicable laws, payment history and market convention. The Statement of Operations includes tax reclaims recorded as well as professional

and other fees, if any, associated with recovery of foreign withholding taxes.

Security Transactions and Related Income – Security transactions are accounted for on the date the security is purchased or sold (trade date). Dividend income is recognized on the ex-dividend date, and interest income is recognized using the accrual basis of accounting. Costs used in determining realized gains and losses on the sales of investment securities are those of the specific securities sold.

Foreign Currency Translation – The books and records of the Fund are maintained in U.S. dollars on the following basis:

- (1) the market value or fair value of investment securities, assets and liabilities is converted at the current rate of exchange; and
- (2) purchases and sales of investment securities, income and expenses are converted at the relevant rates of exchange prevailing on the respective dates of such transactions.

The Fund does not isolate that portion of gains and losses on investments in equity securities that is due to changes in the foreign exchange rates from that which is due to changes in market prices of equity securities.

Foreign Currency Exchange Contracts — When the Fund purchases or sells foreign securities, it enters into corresponding foreign currency exchange contracts to settle the securities transactions. Losses from these foreign exchange transactions may arise from changes in the value of the foreign currency between trade date and settlement date or if the counterparties do not perform under the contract's terms.

Expense/Classes – Expenses that are directly related to one Fund of the Trust are charged directly to that Fund.

(continued)

Other operating expenses of the Trust are prorated to the Fund and the other series of the Trust on the basis of relative daily net assets. Expenses of the Shareholder Service Plan and Agreement for the Investor Class are borne by that class of shares. Income, realized and unrealized gains (losses) and non-class specific expenses are allocated to the respective classes on the basis of relative daily net assets.

Dividends and Distributions – Dividends from net investment income, if any, are declared and paid on an annual basis. Any net realized capital gains on sales of securities are distributed to shareholders at least annually.

Cash – Idle cash may be swept into various time deposit accounts and is classified as cash on the Statement of Assets and Liabilities. The Fund maintains cash in bank deposit accounts which, at times, may exceed United States federally insured limits. Amounts invested and earned income are available on the same business day.

3. Investment Advisory, Administration, Shareholder Service and Distribution Agreements

The Trust, on behalf of the Fund, has entered into an Investment Advisory Agreement (the "Advisory Agreement") with the Adviser. Under the Advisory Agreement, the Adviser is entitled to a monthly fee equal to an annual rate of 1.00% of the Fund's average daily net assets. Effective July 1, 2022, the Adviser has contractually agreed through January 31, 2024 to waive its fee and, to the extent necessary, reimburse the Fund to keep total annual fund operating expenses (excluding brokerage fees and commissions, interest, taxes, shareholder service fees, fees and expenses of other funds in which the Fund invests, tax reclaim-related fees and expenses, and extraordinary expenses) from exceeding 1.10% of Institutional Class and Investor Class average daily net assets. Prior to July 1, 2022, the Adviser had contractually agreed through January 31, 2023 to waive its fee and, to the extent necessary, reimburse the Fund to keep total annual fund operating expenses (excluding brokerage fees and commissions, interest, taxes, shareholder service fees, fees and expenses of other funds in which the Fund invests, and extraordinary expenses) from exceeding 1.10% of Institutional Class and Investor Class average daily net assets. For the fiscal year ended September 30, 2022, the Adviser waived \$202,859 of its advisory fee. The expense waivers and reimbursements are not subject to recapture.

The Trust and SEI Investments Global Funds Services (the "Administrator") have entered into an Administration Agreement. Under the terms of the Administration Agreement, the Administrator is entitled to an annual fee which is calculated daily and paid monthly based on the aggregate average daily net assets of the Trust subject to a minimum annual fee.

The Trust has adopted a Shareholder Service Plan and Agreement for Investor Class shares that allows the Trust to pay broker-dealers and other financial intermediaries a fee of up to 0.25% per annum of average daily net assets for services provided to Investor Class shareholders. For the fiscal year ended September 30, 2022, the Investor Class paid 0.25% annualized of average daily net assets under this plan.

The Trust and SEI Investments Distribution Co. (the "Distributor") have entered into a Distribution Agreement. The Distributor receives no fees from the Fund for its distribution services under this agreement.

The officers of the Trust are also officers or employees of the Administrator or Adviser. They receive no fees for serving as officers of the Trust.

As of September 30, 2022, approximately \$5,833 (000) of Fund's net assets were held by investors affiliated with the Adviser.

(continued)

4. Investment Transactions

The cost of security purchases and the proceeds from the sale of securities, other than short-term investments, during the fiscal year ended September 30, 2022, for the Fund were as follows (000):

Purchases	Sales
\$112,625	\$95,041

5. Risks of Foreign and Small Cap Investing

Because the Fund invests most of its assets in foreign securities, the Fund is subject to additional risks. For example, the value of the Fund's securities may be affected by social, political and economic developments and U.S. and foreign laws relating to foreign investments. Further, because the Fund invests in securities denominated in foreign currencies, the Fund's securities may go down in value depending on foreign exchange rates. Other risks include trading, settlement, custodial, and other operational risks; withholding or other taxes; and the less stringent investor protection and disclosure standards of some foreign markets. All of these factors can make foreign securities less liquid, more volatile and harder to value than U.S. securities. These risks are higher for emerging markets investments.

Global economies are increasingly interconnected, and political, economic and other conditions and events (including, but not limited to, natural disasters, pandemics, epidemics, wars, and social unrest) in one country or region might adversely impact a different country or region. Furthermore, the occurrence of severe weather or geological events, fires, floods, earthquakes, climate change or other natural or manmade disasters, outbreaks of disease, epidemics and pandemics, malicious acts, cyber-attacks or terrorist acts, among other events, could adversely impact the performance of the Fund. These events may result in,

among other consequences, closing borders, exchange closures, health screenings, healthcare service delays, quarantines, cancellations, supply chain disruptions, lower consumer demand, market volatility and general uncertainty. These events could adversely impact issuers, markets and economies over the short- and long-term, including in ways that cannot necessarily be foreseen. The Fund could be negatively impacted if the value of a portfolio holding were harmed by political or economic conditions or events. Moreover, negative political and economic conditions and events could disrupt the processes necessary for the Fund's operations.

For example, global financial markets have experienced and may continue to experience significant volatility resulting from the spread of COVID-19. The COVID-19 pandemic has resulted in travel and border restrictions, quarantines, supply chain disruptions, labor restrictions, lower consumer demand and general market uncertainty. The effects of COVID-19, including new variants, have and may continue to adversely affect the global economy, the economies of certain nations and individual issuers, all of which may negatively impact the Fund. Similar consequences could arise as a result of the spread of other infectious diseases.

The Fund invests a significant portion of its assets in the securities of smaller capitalization companies. Investments in smaller companies involve additional risks and typically exhibit higher volatility. The values of securities of smaller, less well-known companies can be more sensitive to, and react differently to, company, political, market, and economic developments than the market as a whole and other types of securities. Smaller companies can have more limited product lines, markets, growth prospects, depth of management, and financial resources, and these companies may have shorter operating histories

(continued)

and less access to financing, creating additional risk. Further, smaller companies may be particularly affected by interest rate increases, as they may find it more difficult to borrow money to continue or expand operations, or may have difficulty in repaying any loans that have floating rates. Because of these and other risks, securities of smaller capitalization companies tend to be more volatile and less liquid than securities of medium and larger capitalization companies. During some periods, securities of smaller capitalization companies, as an asset class, have underperformed the securities of larger capitalization companies.

6. Federal Tax Information

The Fund is classified as a separate taxable entity for Federal income tax purposes. The Fund intends to continue to qualify as a separate "regulated investment company" under Subchapter M of the Internal Revenue Code and make the requisite distributions to shareholders that will be sufficient to relieve it from Federal income tax and Federal excise tax. Therefore, no Federal tax provision is required. To the extent that dividends from net investment income and distributions from net realized capital gains exceed amounts reported in the financial statements, such amounts are reported separately.

The Fund may be subject to taxes imposed by countries in which it invests in issuers existing or operating in such countries. Such taxes are generally based on income earned. The Fund accrues such taxes when the related income is earned. Dividend and interest income is recorded net of non-U.S. taxes paid. Gains realized by the Fund on the sale of securities in certain countries are subject to non-U.S. taxes. Expected capital gains taxes on appreciated securities, if any, are accrued as unrealized losses and incurred capital gains taxes are reflected as realized losses upon the sale of the related security. The Fund records a liability based on unrealized gains to provide for potential non-U.S. taxes payable upon the sale of these securities.

The amounts of distributions from net investment income and net realized capital gains are determined in accordance with Federal income tax regulations, which may differ from those amounts determined under U.S. GAAP. These book/tax differences are either temporary or permanent in nature. The character of distributions made during the year from net investment income or net realized gains, and the timing of distributions made during the year may differ from those during the year that the income or realized gains (losses) were recorded by the Fund. To the extent these differences are permanent, adjustments are made to the appropriate equity accounts in the period that the differences arise.

During the year ended September 30, 2022, there were no permanent differences credited or charged to Paid-in Capital and Distributable Earnings.

The tax character of dividends and distributions declared during the fiscal years ended September 30, 2022 and September 30, 2021 was as follows (000):

	Ordinary Income	Total
2022	\$1,981	\$1,981
2021	1,935	1,935

As of September 30, 2022, the components of distributable earnings (accumulated losses) on a tax basis were as follows (000):

Undistributed Ordinary Income	\$ 2,491
Capital Loss Carryforwards	(954)
Post October Losses	(3,262)
Unrealized Depreciation	(10,049)
Total Accumulated Losses	\$(11,774)

Post-October losses represent losses realized on investment transactions from November 1, 2021 through September 30, 2022, that, in accordance with Federal income tax regulations, the Fund may elect to defer and treat as having arisen in the following fiscal year.

(continued)

The Fund is permitted to carry forward capital losses for an unlimited period. Capital losses that are carried forward will retain their character as either short-term or long-term capital losses. Losses carried forward are as follows (000):

Short-Term Loss	Long-Term Loss	Total
\$936	\$18	\$954

For the fiscal year ended September 30, 2022, the Fund did not use any capital loss carryforwards.

At September 30, 2022, the total cost of investments for Federal income tax purposes and the aggregate gross unrealized appreciation and depreciation on investments for the Fund were as follows (000):

Federal Tax Cost	Appreciated Securities	Depreciated Securities	Net Unrealized Depreciation
\$80,154	\$2,360	\$(12,349)	\$(9,989)

7. Capital Shares Issued and Redeemed (000)

	Fiscal Year Ended September 30, 2022			ear Ended er 30, 2021

Net Increase (Decrease) in Shares Outstanding from				
Capital Share Transactions	1,508	\$ 17,008	(1,686)	<u>\$(16,438)</u>

8. Significant Shareholder Concentration

As of September 30, 2022, three of the Fund's share-holders of record owned 84% of the Institutional Class shares. The Fund may be adversely affected when a shareholder purchases or redeems large amounts of shares, which may impact the Fund in the same manner as a high volume of redemption requests. Such large

shareholders may include, but are not limited to, institutional investors and asset allocators who make investment decisions on behalf of underlying clients.

Significant shareholder purchases and redemptions may adversely impact the Fund's portfolio management and may cause the Fund to make investment decisions at inopportune times or prices or miss attractive

(concluded)

investment opportunities. Such transactions may also increase the Fund's transaction costs, accelerate the realization of taxable income if sales of securities result in gains, or otherwise cause the Fund to perform differently than intended.

9. Indemnifications

Under the Trust's organizational documents, each Trustee, officer, employee or other agent of the Trust is indemnified against certain liabilities that may arise out of the performance of his or her duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts, including the Fund's servicing agreements, that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. The risk of material loss as a result of such indemnification claims is considered remote.

10. Line of Credit

The Fund, along with certain other series of the Trust, is a party to an agreement which enables it to participate in a \$10 million secured committed revolving line of credit with The Bank of New York Mellon which expires February 15, 2023. The proceeds from the borrowings, if any, are used to finance the Fund's short-term general working capital requirements, including the funding of shareholder redemptions. Interest, if any, is charged to the Fund based on its borrowings during the period at the applicable rate plus 1.5%. The Fund is also charged a portion of a commitment fee of 0.20% per annum. As of September 30, 2022, there were no borrowings outstanding under the line of credit.

11. Subsequent Events

The Fund has evaluated the need for disclosures and/or adjustments resulting from subsequent events through the date the financial statements were issued. Based on this evaluation, no disclosures and/or adjustments were required to the financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees of Causeway Capital Management Trust and Shareholders of the Causeway International Small Cap Fund

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of Causeway International Small Cap Fund (one of the funds constituting Causeway Capital Management Trust, referred to hereafter as the "Fund") as of September 30, 2022, the related statement of operations for the year ended September 30, 2022, the statement of changes in net assets for each of the two years in the period ended September 30, 2022, including the related notes, and the financial highlights for each of the five years in the period ended September 30, 2022 (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of September 30, 2022, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period ended September 30, 2022 and the financial highlights for each of the five years in the period ended September 30, 2022 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of September 30, 2022 by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

/s/ PricewaterhouseCoopers LLP Los Angeles, California November 28, 2022

We have served as the auditor of one or more investment companies in Causeway Capital Management Investment Company Complex since 2001.

NOTICE TO SHAREHOLDERS (Unaudited)

The information set forth below is for the Fund's fiscal year as required by federal laws. Shareholders, however, must report distributions on a calendar year basis for income tax purposes, which may include distributions for portions of two fiscal years of the Fund. Accordingly, the information needed by shareholders for income tax purposes will be sent to them in early 2023. Please consult your tax adviser for proper treatment of this information.

For the fiscal year ended September 30, 2022, the Fund is designating the following items with regard to distributions paid during the year:

(A) (B)		(C)	(D)	(E)
Long Term Capital Gains Distributions (Tax Basis)	Ordinary Income Distributions (Tax Basis)	Tax Exempt Distributions (Tax Basis)	Total Distributions (Tax Basis)	Dividends ⁽¹⁾ for Corporate Dividends Received Deduction (Tax Basis)
0.00%	100.00%	0.00%	100.00%	0.52%
(F)	(G)	(H)	(I)	
Qualified Dividend Income	Interest Related Dividends	Qualified Short-Term Capital Gain Dividends	Qualified Foreign Tax Credit Pass Through	
81.49%	0.08%	0.00%	22.19%	

⁽¹⁾ Qualified Dividends represent dividends which qualify for the corporate dividends received deduction.

Items (A), (B), (C) and (D) are based on a percentage of the Fund's total distribution including pass-through as foreign tax credit. Item (E) is based on a percentage of ordinary income distributions of the Fund.

Item (F) represents the amount of "Qualified Dividend Income" as defined in the Jobs and Growth Tax Relief Reconciliation Act of 2003 and is reflected as a percentage of "Ordinary Income Distributions." It is the Fund's intention to designate the maximum amount permitted by the law up to 100%.

Item (G) is the amount of "Interest Related Dividends" as created by the American Jobs Creation Act of 2004 and is reflected as a percentage of net investment income distributions that is exempt from U.S. withholding tax when paid to foreign investors.

Item (H) is the amount of "Qualified Short-Term Capital Gain Dividends" as created by the American Jobs Creation Act of 2004 and is reflected as a percentage of short-term capital gain distributions that is exempt from U.S. withholding tax when paid to foreign investors. Item (I) is the amount of "Qualifying Foreign Taxes" as a percentage of ordinary distribution during the fiscal year ended September 30, 2022. The Fund accrued Foreign taxes during the fiscal year ended September 30, 2022, amounted to \$565,055 and are expected to be passed through to shareholders as foreign tax credits on Form 1099 – Dividend for the year ended December 31, 2022. In addition, for the fiscal year ended September 30, 2022, gross income derived from sources within foreign countries amounted to \$3,433,714 for the Fund.

TRUSTEES AND OFFICERS INFORMATION (Unaudited)

Information pertaining to the Trustees and Officers of the Trust is set forth below. Trustees who are not deemed to be "interested persons" of the Trust as defined in the 1940 Act are referred to as "Independent Trustees." The Trust's Statement of Additional Information ("SAI") includes additional information about the Trustees and Officers. The SAI may be obtained without charge by calling 1-866-947-7000.

TRUSTEES AND OFFICERS INFORMATION (Unaudited)

(concluded)

- ¹ Each Trustee may be contacted by writing to the Trustee c/o Causeway Capital Management Trust, One Freedom Valley Drive, Oaks, PA 19456.
- ² Each Trustee holds office during the lifetime of the Trust or until his or her sooner resignation, retirement, removal, death or incapacity in accordance with the Trust's Declaration of Trust. The president, treasurer, secretary and other officers each holds office at the pleasure of the Board of Trustees or until he or she sooner resigns in accordance with the Trust's Bylaws.
- ³ The "Trust Complex" consists of all registered investment companies for which Causeway Capital Management LLC serves as investment adviser. As of September 30, 2022, the Trust Complex consisted of one investment company with six portfolios International Value Fund, Emerging Markets Fund, Global Value Fund, International Opportunities Fund, International Small Cap Fund, and Concentrated Equity Fund.
- ⁴ Directorships of companies required to report to the Securities and Exchange Commission under the Securities Exchange Act of 1934 (i.e., "public companies") or other investment companies registered under the 1940 Act.
- ⁵ These officers of the Trust also serve as officers of one or more mutual funds for which SEI Investments Company or an affiliate acts as investment manager, administrator or distributor.

DISCLOSURE OF FUND EXPENSES (Unaudited)

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including redemption fees, and (2) ongoing costs, including management fees, shareholder service fees, and other Fund expenses. It is important for you to understand the impact of these costs on your investment returns.

Ongoing operating expenses are deducted from a mutual fund's gross income and directly reduce its final investment return. These expenses are expressed as a percentage of a mutual fund's average net assets; this percentage is known as a mutual fund's expense ratio.

The following examples use the expense ratio and are intended to help you understand the ongoing costs (in dollars) of investing in the Fund and to compare these costs with those of other mutual funds. The examples are based on an investment of \$1,000 made at the beginning of the period shown and held for the entire period (April 1, 2022 to September 30, 2022).

The table on the next page illustrates the Fund's costs in two ways:

Actual Fund Return. This section helps you to estimate the actual expenses after fee waivers that the Fund incurred over the period. The "Expenses Paid During Period" column shows the actual dollar expense cost incurred by a \$1,000 investment in the Fund, and the "Ending Account Value" number is derived from deducting that expense cost from the Fund's gross investment return.

You can use this information, together with the actual amount you invested in the Fund, to estimate the expenses you paid over that period. Simply divide your actual account value by \$1,000 to arrive at a ratio (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply that ratio by the number shown under "Expenses Paid During Period."

Hypothetical 5% Return. This section helps you compare the Fund's costs with those of other mutual funds. It assumes that the Fund had an annual 5% return before expenses during the year, but that the expense ratio (Column 3) for the period is unchanged. This example is useful in making comparisons because the Securities and Exchange Commission requires all mutual funds to make this 5% calculation. You can assess the Fund's comparative cost by comparing the hypothetical result for the Fund in the "Expenses Paid During Period" column with those that appear in the same charts in the shareholder reports for other mutual funds.

NOTE: Because the return is set at 5% for comparison purposes — NOT the Fund's actual return — the account values shown may not apply to your specific investment.

DISCLOSURE OF FUND EXPENSES (Unaudited)

(concluded)

	Beginning Account Value 4/01/22	Ending Account Value 9/30/22	Annualized Expense Ratios	Expenses Paid During Period*
Causeway International Small Cap Fund				
Actual Fund Return Institutional Class	\$1,000.00	\$ 771.80	1.10%	\$4.89
Hypothetical 5% Return Institutional Class	\$1,000.00	\$1,019.55	1.10%	\$5.57
Actual Fund Return Investor Class	\$1,000.00	\$ 770.50	1.35%	\$5.99
Hypothetical 5% Return Investor Class	\$1,000.00	\$1,018.30	1.35%	\$6.83

^{*} Expenses are equal to the Fund's annualized expense ratio multiplied by the average account value over the period, multiplied by 183/365 (to reflect the one-half year period shown).

STATEMENT REGARDING BASIS FOR RENEWAL OF INVESTMENT ADVISORY AGREEMENT (Unaudited)

At a meeting on August 8, 2022, the Trustees considered and approved the renewal of the investment advisory agreement (the "Advisory Agreement") between Causeway Capital Management Trust (the "Trust") and Causeway Capital Management LLC (the "Adviser") with respect to Causeway International Small Cap Fund (the "Fund") for a twelvemonth period beginning September 20, 2022. Section 15(c) of the Investment Company Act of 1940, as amended (the "1940 Act") requires the Board of Trustees (the "Board") of the Trust annually to approve continuance of the Advisory Agreement. Continuance of the Advisory Agreement must be approved by a majority of the Trustees and a majority of the independent Trustees (i.e., Trustees who are not "interested persons" of the Trust as defined in the 1940 Act). The Board was comprised of four independent Trustees when the continuation of the Advisory Agreement was considered.

Information Received. At each regular quarterly meeting, the Board reviews a wide variety of materials relating to the nature, extent and quality of the Adviser's services, including information concerning the Fund's performance. In addition, at a special meeting on June 22, 2022, the Trustees received and reviewed extensive quantitative and qualitative materials prepared by the Adviser relating to the Advisory Agreement in response to information requested on the independent Trustees' behalf by their independent legal counsel. At the June special meeting, the Trustees also received and reviewed a report prepared by Broadridge Financial Solutions, Inc. providing comparative expense and performance information about the Fund to assist with the annual review of the Advisory Agreement. Following that meeting, the Trustees requested additional information, and received and reviewed further materials prepared by the Adviser relating to their consideration of the renewal of the Advisory Agreement at the August 8, 2022 meeting.

Factors Considered. In reviewing the Advisory Agreement, the Trustees considered a number of factors including, but not limited to: (1) the nature, extent and quality of the services provided by the Adviser, (2) the investment performance of the Fund, (3) comparisons of the services rendered and the amounts paid under the Advisory Agreement with those of other funds and those of the Adviser under other investment advisory agreements with other registered investment companies, (4) the costs of the services provided and estimated profits realized by the Adviser and its affiliates from their relationship with the Fund, (5) the extent to which economies of scale would be realized as the Fund grows and whether fee levels reflect these economies of scale for the benefit of Fund investors, and (6) any other benefits derived by the Adviser from its relationship with the Fund.

First, regarding the nature, extent and quality of the services provided by the Adviser, the Trustees considered, among other things, the Adviser's personnel, experience, track record and compliance program. The Trustees considered the qualifications, backgrounds and responsibilities of the Adviser's principal personnel who provide services to the Fund, as well as the level of attention those individuals provide to the Fund. The Trustees noted the Adviser's commitment to devoting resources to staffing and technology in support of its investment management services. They also reviewed the Adviser's investment philosophy and processes and its compliance program, its various administrative, legal and regulatory responsibilities, and considered the scope of the Adviser's services to the Fund. The Trustees concluded that the nature, extent and quality of the services provided by the Adviser should continue to benefit the Fund and its shareholders.

STATEMENT REGARDING BASIS FOR RENEWAL OF INVESTMENT ADVISORY AGREEMENT (Unaudited) (continued)

Second, regarding the investment performance of the Fund, the Trustees reviewed the investment results of the Fund for various periods ended March 31, 2022, compared to the results of the MSCI ACWI ex USA Small Cap Index (Gross), the median of the mutual funds included in the Morningstar Foreign Small/Mid-Value category, and the median of the funds in a peer group selected by Broadridge. They noted that, consistent with Broadridge's practice, the Broadridge 15(c) Report focused on one class of shares – the Institutional Class – and that Investor Class shares are subject to a 25 basis point shareholder service fee, which increases expenses and reduces performance from that shown. The Trustees noted that the Institutional Class had outperformed its Broadridge peer group median for the prior one-year and annualized three and five-year periods. The Trustees considered the Fund's exposure to the value investment style, the impact of the COVID-19 pandemic, including ongoing lockdowns in certain jurisdictions, global uncertainties stemming from the invasion of Ukraine, and challenges for value investing relative to growth stock investing. Despite periods of relative underperformance, the Trustees concluded that the overall performance results and other considerations supported their view that the Adviser's services to the Fund are of a high quality. The Trustees concluded that the Adviser's record in managing the Fund in a manner consistent with the described investment strategy and style indicated that its continued management had the potential to benefit the Fund and its shareholders.

Third, regarding the Fund's advisory fee and total expenses as a percentage of the Fund's average daily net assets:

- The Trustees compared the Fund's advisory fee and total expenses with those of other similar mutual funds. They noted that the Fund's advisory fee was 100 basis points per annum compared to a median of 94 basis points for its Broadridge peer group and a range of 36-108 basis points for the funds in its peer group. The Trustees noted that the Fund's Institutional Class annual expense ratio, after application of the Adviser's expense limit, of 110 basis points was five basis points higher than the median of the funds in its Broadridge peer group and within the range of 36-140 basis points of the funds in the peer group.
- The Trustees compared the Fund's advisory fee with the fees charged by the Adviser to other clients. The Trustees noted that, although the fees paid by the Adviser's other account is lower than the fee paid by the Fund, the difference appropriately reflected the Adviser's significantly greater responsibilities with respect to the Fund and the risks of managing a sponsored fund, and are not determinative of whether the fees charged to the Fund are fair. The Trustees noted that the Adviser's services to the Fund included the provision of many additional or more extensive administrative and shareholder services (such as services related to the Fund's disclosure documents, financial statements, 1940 Act compliance policies and procedures, preparation of Board and committee materials and meetings, annual Board reports and certifications, oversight of daily valuation, oversight of Fund service providers, negotiation of Fund intermediary agreements, coordination with Fund intermediaries providing shareholder recordkeeping services, shareholder communications, and due diligence for advisers, consultants and institutional investors).

The Trustees concluded that the Fund's advisory fee and expense ratio were reasonable and appropriate under the circumstances.

STATEMENT REGARDING BASIS FOR RENEWAL OF INVESTMENT ADVISORY AGREEMENT (Unaudited)

(concluded)

Fourth, the Trustees considered the Adviser's costs of providing services to the Fund and estimated profits or losses realized by the Adviser from its relationship with the Fund. They reviewed the Adviser's estimated after-tax profit margin with respect to such services for the twelve months ended March 31, 2022, and the methodology used to generate that estimate, and noted that the cost allocation methodology presented to the Trustees was reasonable. They also observed that the Adviser indicated that the Fund was not currently profitable. After consideration of these matters, the Trustees concluded that the Adviser's operating margin with respect to its relationship with the Fund was reasonable.

Fifth, regarding economies of scale, the Trustees observed that, although the Fund's advisory fee schedule does not contain fee breakpoints, it is difficult to determine the existence or extent of any economies of scale. They noted that the Adviser is sharing economies of scale through reasonable advisory fee levels, expense limit agreements, and devoting additional resources to staff and technology to focus on continued performance and service to the Fund's share-holders. They considered certain initiatives and noted that the Adviser continues to innovate and enhance its capabilities, and that innovation is a means of reinvesting in its services. They also noted the entrepreneurial risks taken by the Adviser in forming the Fund and that the Adviser had incurred losses in managing the Fund. The Trustees concluded that under the circumstances the Adviser is sharing any economies of scale with the Fund appropriately.

Sixth, regarding any other benefits derived by the Adviser from its relationship with the Fund – often called "fall-out" benefits – the Trustees observed that the Adviser does not earn "fall-out" benefits such as affiliated custody fees, affiliated transfer agency fees, affiliated brokerage commissions, profits from rule 12b-1 fees, "contingent deferred sales commissions" or "float" benefits on short-term cash. The Trustees concluded that the primary "fall-out" benefit received by the Adviser is research services provided by brokers used by the Fund and that this benefit is reasonable in relation to the value of the services that the Adviser provides to the Fund.

Approval. At the June 22, 2022 and August 8, 2022 meetings, the Trustees discussed the information and factors noted above with representatives of the Adviser and, at the August 8, 2022 meeting, the Trustees considered the approval of the Advisory Agreement. The independent Trustees also met in a private session at all meetings with independent counsel at which no representatives of the Adviser were present. In their deliberations, the independent Trustees did not identify any particular information or factor that was determinative or controlling, each Trustee did not necessarily attribute the same weight to each factor, and the foregoing summary does not detail all the matters considered. Based on their review, the Trustees (including the independent Trustees) unanimously concluded that the Advisory Agreement is fair and reasonable to the Fund and its shareholders and that the Fund's advisory fee is reasonable and renewal of the Advisory Agreement is in the best interests of the Fund and its shareholders, and the Board of Trustees unanimously approved renewal of the Advisory Agreement for a twelve-month period beginning September 20, 2022.
